

# **“Digital Europe, programme, objectives and opportunities for funding”**

## **Webinar**

8 September 2022 (10.00 am – 12.00 am CET)

Online, Zoom

## *Programme*

### **Background**

The new Digital Europe Programme launched by the EC provides strategic funding to answer the current challenges highlighted by the COVID-19 pandemic, supporting projects in five key capacity areas: in supercomputing, artificial intelligence, cybersecurity, advanced digital skills, and ensuring a wide use of digital technologies across the economy and society, including through Digital Innovation Hubs. The main objective is to accelerate the economic recovery and shape the digital transformation of Europe's society and economy, bringing benefits to everyone.

EPR decided to organize this webinar with the aim to support its members in identifying the most relevant opportunities offered by the Digital Europe Programme.

The objectives are:

- To share the main features of the programme;
- To identify the needs, challenges and potential topics to cover in the social service sector
- To discuss on future calls that could be of interest to EPR members

### **Programme**

#### **EPR Secretariat: Welcome and Introduction**

#### **Digital Europe Programme (DIGITAL) - EPR Secretariat**

- Programme overview: objectives, priorities and financial resources
- Relevant past calls for the social service provision sector (Uptake of Digital solutions in Health & Care; Short term training courses in key capacity areas)
- Projects funded & main results
- Discussion of interest in future calls, specific topics and possible challenges
