

## Digital Skills WG

19 April 2023 (14.30 – 16.30 CET)

Online, Zoom

### Programme

#### Background

In 2022 EPR created a dedicated working group for digital skills. 3 meetings took place, 2 online and 1 day in person. The last meeting in November 2022, was hosted by EPR member Fundación Once in Madrid. The participants had the opportunity to visit the digital hub and learn more about the training programmes designed for the Fundación ONCE's users with disabilities. They also had an exchange on projects and programmes implemented in the field and shared recommendations for the accessibility of digital skills. Some projects ideas were shared with the aim to develop a project concept, and one of the proposals was submitted as a project in March 2023, on digital skills assessment. The final online meeting heard from good practices from EPR members, looked further into project ideas and planned topics for discussion in 2023.

In 2023 topics to be picked up include upskilling staff, the European year of skills and updates on EU projects

#### Programme

- |               |   |
|---------------|---|
