EU Policy Flash Webinar

27th June 2018, 10:30 – 12:00 CET

Draft Programme

Background

As part of its annual work programme, EPR offers a series of webinars to members focusing on updating on the latest developments on EU policy that relate to EPR members sector of work and how they might be relevant for them. During the past months, key developments have been made in relation to social issues in the EU. The European Pillar of Social Rights has pushed social issues up in the European agenda and influenced the recommendations the EU gives every year to national governments. The EU has recently released proposals for the new funding programmes that will pave the way of projects and policy themes in the next seven years (from 2020 onwards) and launched a public consultation on long-term unemployment that EPR would like to respond to, together with the input of its members.

Objectives

- Increased understanding of how the EU policy developments influence EPR members' sectors and work.
- Learn about the proposed new funding programmes of the EU for the post 2020 period.
- Share ideas for the joint contribution on the public consultation of Long Term Unemployment.

Who is the webinar for?

All EPR members are invited to attend the event particularly those who are involved in running EU funded projects, work on getting people into the labour market, involved in or interested in policy developments and their potential impact on services.

Format

This is an interactive webinar where participants will be able to interact online through discussion and shared experiences and actions in their centres.
